DAILY NEVADA STATE JOURNAL

C. C. Powning, Editor & Proprietor

THURSDAY.... ... ...AUGUST 16, 1883

SENSATIONAL ONLY.

The public is safe in not giving too much credence to the story which comes from Mexico to the effect that the German Minister Resident there had offered an insult to our Minister in refusing to display the German flag on the 4th of July. That the flag did go up after the German Minister's attention had been angrily called to the matter by Minister Morgan leaves ground for the belief that the German Minister was guilty of no intended slight. There could be no reason for such unseemly conduct The relations between Germany and the United States are of the most friendly kind, and it is not to be supposed that without cause the diplomatic representative of Germany would assume the responsibility of an act that would be sure to endanger his official position. Undoubtedly when the affair has been fully explained it will be found there was a misapprehension or an exaggeration of the actual facts. It was only a few days ago that a rumor originating in Washington City and published in the New York Herald, asserted that "a secret political treaty, or offensive and defensive alliance," had been concluded between Germany and Mexico, which Mr. Fiegel, the German Consul-General at New York, declares contains not one word of truth. It may be set down as certain that if the German Minister is guilty, as charged, that his act will be disavowed by his own government which will be satisfactory to the United States.

DON'T WANT THEM.

The English Government is having some difficulty in disposing of the Irish informers. They are entitled to protection as per agreement, but just how that protection is to be given without keeping them under lock and key is the question. A few weeks ago Kavanaugh, with a number of other informers were sent out to Australia as "assisted emigrants," but the Government of New South Wales would not permit them to land and they were transferred to a British man-of war from whence they will be taken to one of the Samoon or Grindley Islands, where it is supposed no Irishmen can molest them. But there is no certainty of that. There are very few parts of the world to which Irishmen do not go occasionally. If the British Government wants to be perfectly sure that the informers are out of harm's way, it should take them to Symmes Hole and drop them in.

A New Industry.

The fact was long ago stated upon scientific authority that sufficient coal gas escaped and went to waste in the exhausted oil regions of Pennsylvania to supply all the light and fuel for manufacturing purposes required in the cities of Philadelphia, New York and Brooklyn. Capitalists in the East has perfected a plan by which this mine of wealth can be utilized. The proposition is to collect the gas in immense receivers and conduct it in common iron pipes to the Atlantic seaboard. Twenty-one companies were recently chartered in Philadelphia for this purpose. It is thought that in case the supply from the present openings should become exhausted, the supply can easily be kept up indefinitely by boxing.

Butler's Views.

Gen. Butler has given his views in reference to the plan for securing payment for Confederate bonds. He says the holders of these bonds have no right to expect payment of the obligations of Southern Confederacy. The payment of these bonds, he says, was based upon a contingency which never came to pass. The purchase of a bond was simply a bet that the Confederacy would establish itself as a permanent government. They lost the bet and their money as finally and fairly as if they had bet on the losing horse in a race

Tilden is all right. He has just purchased a team of well matched Kentucky horses, and takes great pleasure in giving them their daily exercise.

Capt. T. G. Taylor, Hon. E Strother and R. H. McDonald came down from the Comstock last evening, en route to the Bay.

THE CENTRAL PACIFIC.

What C. P. Huntington Says About the Sale of the Stock.

C. P. Huntington says: "Crocker has not sold one share of the Central Pacific for twelve months. The last share he sold was in June, 1882. I know he has not sold, because I have it in charge myself. We are not selling the stock. It matters little to us what the stock is selling for on the street, as long as the company pays its dividends and coupons. We have just paid one dividend and have every reason to believe the next dividend will be the same and will be paid next February. The outlook for business on the Central Pacific is good; in fact, the Central Pacific never was in as healthy a condition as to day. The road has nearly all steel rails, and has about completed its construction work. Its fixed charges are less than they were last year, and we are reducing operating expenses very considerably. Our net earnings are very satisfactory. Indeed, I look for $100,000 increase in July in the net earnings over July last year. The apparent shrinkage in the gross earnings for the first half of this year was due to the fact that last year we were carrying, among other things, construction material for nearly four hundred miles of road east of El Paso. The rates for carrying this freight were at about cost to us, so that it did not really tell on the net profits at all. The ratio of expenses will be less this year. The business and outlook of the country west is not as bad as many suppose. Competition is not hurting us much. Of course, instead of two prongs of roads to the west coast there are three. I know but little about Gould stocks. Gould, however, is a clear-headed man, and if his stocks are lower, it is evidence of his strength rather than of his weakness. He is probably indifferent to the weakness of his stocks I think, however, the time is soon coming when Gould will step in and take his stocks at figures which will give him a large profit, on the supposition that he sold out at much higher figures, which he probably did. Governor Stanford is in London, but intends to leave for Paris in a few days. His health is improving very much. The report that he is selling Central Pacific is untrue. The Governor is still a large holder of the stock and has a firm belief in the stability of the property."

McDONALD-TILDEN

The Indianian Scents Uncle Sammy's Bar'l.

A Washington special of the 15th to the Chicago Times says:

Ex-Senator McDonald of Indiana appeared in town quite suddenly last evening. The object of his visit to the Capital was a subject of much speculation among politicians. To-day he had a conference with several trusted friends who are managing his canvass, and it has leaked out that he has found a point of weakness along the line of his trusted followers. McDonald has but recently returned from New York and it is understood that the object of his visit to the metropolis was to ascertain by personal investigation whether there is any danger from Tilden. He now knows as positively as any man can know that Tilden is crazy after the nomination. No stone is left unturned to secure that end. Conferences are being held daily at Graystone between Tilden and his trusted lieutenants, and the Sage of Gramercy Park is putting his best foot forward to carry next year's convention This discovery has filled McDonald with alarm and he is doing his best to patch up the broken places in his fences.

It Must be False.

A sensational dispatch comes from Dayton, Ohio, which certainly needs confirmation to warrant a belief in its truthfulness. It is said that last Friday General Patrick, Governor of the Soldiers' Home near D[illegible]n, had seventy-eight men drawn up in a line before him, and after denouncing them in various ways, notified them that if they were caught in the institution after next Wednesday they would be driven out. They are cripples. Some are legless and some dying with consumption.

Fire Departments of the West.

Fire Commissioner Gorman, who has returned to New York from San Francisco, says the United States have the best fire brigade in the world. He found at San Francisco an excellent, well-equipped fire department, with David Scannell as Chief. At Salt Lake there is also a good corps of volunteer firemen, with a few paid men who do routine work, in addition to running to fires Every town in the West appears to have its fire department.

HARDIN-MASON.

Marriage of Hon. C. H. E. Hardin and Miss Mason.

The San Francisco Call gives the annexed particulars of the ceremony which forever united Hon. C. H. E. Hardin, a member of the last Nevada Assembly from Humboldt county, and Miss Ursula Mason, the accomplished daughter of Hock Mason, of Mason Valley:

At the residence of the bride's parents, Mr. and Mrs. N. H. A. Mason, No. 37 Liberty street, last Tuesday evening, the wedding of Mr. C. H E. Hardin, son of Colonel Hardin, of Santa Rosa, and Miss Ursula Mason took place. Mr. Mason, the bride's father, is an extensive cattle dealer of Nevada, but has been stopping with his family in this city for some time.

The house was beautifully and lavishly decorated, every nook and corner being filled with the rarest flowers. The bow window was draped and garlanded with flowers, interwined with graceful sprays of smilax. From the centre depended a marriage bell of dainty blooms and blossoms, underneath which the bridal party stood. The chandeliers were twined with smilax, while the same delicate vine draped the mirrors, pictures and arches. Cordons of evergreens were draped throughout the various rooms, and floral designs of every conceivable appropriate design were placed about the parlors. The floral devices, which were elegant, were many of them the gift of friends. A band was stationed in an alcove and discoursed music during the evening.

Shortly after nine o'clock Rev. Dr. McLane took up his position under the large marriage bell in the front parlors and was joined by the bride and groom. The ceremony was short and impressive. Congratulations followed and then refreshments were partaken of by the guests.

The bride was magnificently attired in ivory-white satin brocade. The train was of extreme length and made of brocade, laid in three deep plaits at the back, and finished at the base with a very heavy chenille cord. The front was of ivory white satin, and covered with pendent chenille balls. At the base was a ruffle of satin edged with chenille fringe. The corsage was high, finished with a chenille and point lace, en points back and front. The elbow sleeves were also finished with chenille fringe. A corsage boquet of stephanotis and maiden-hair was worn at the neck. The veil was made of tulle and worn over the face and fastened to the side of the coiffure with stephanotis and maiden-hair. Ornaments, diamonds.

The bridesmaids were Miss Dixie Mason (sister of the bride), and Miss Ximella Hordin (sister of the groom) They were both dressed alike, in toilet of cream white nun's-veiling. The skirts were made short, profusely trimmed with ruffles of Spanish lace. Long streames of cream satin ribbon were worn at the sides of the overdrapery, which was very bouffant. The corsages were en basque, cut square at the neck and trimmed with lace. The elbow sleeves were also made of Spanish lace and trimmed with ribbon bows, large corsage, bouquets of marguerites and maiden-hair were worn at the belt. The coiffures were plain, arranged with white flowers. Ornaments, pearls.

Among the guests present were Colonel Hardin and family of Santa Rosa; Mr and Mrs. J. C. Smith Oakland; Mr. and Mrs. J. W. Owens, Oakland, Mr. and Mrs. A. L. Bascom, San Jose; Mr. and Mrs. Riley of Santa Rosa; Mr. and Mrs. Douglas of Nevada City: Mr and Miss Bradley, Oakland; Miss Bagley, Mr. Dow, Miss Bostic, Mr. Harold, Mr. and Miss J. J. Scribner, Mr. W. J. Smith.

On the following morning Mr. and Mrs. Hardin left for Monterey, where they will remain for a couple of weeks and then return to the city and take up their residence here.

Address of Striking Telegraph Operators.

This comes to hand for publication:

SAN FRANCISCO, Aug. 13, 1883.

TO OUR FRIENDS: This Brotherhood has been shown an order addressed to all agents of the Western Associated Press, emanating from their Chicago headquarters, directing them to suppress all news items concerning the present strike of the telegraphers. This is authentic and shows plainly the policy adopted as a last resort by our oppressors The object of this ruse, of course, is to make it appear to the public that the business of the Company is no longer suffering from lack of a full and efficient force to handle it and to cause the great public sympathy which is now ours to die out for want of news. Our official news from all parts is of the most encouraging nature. We have already won the fight, but Jay Gould is not candid enough to admit it.

THE BROTHERHOOD OF TELEGRAPHERS, L. A. 2,507 K. of L.

When Ladies are Attractive.

All ladies know their faces are attractive when free from pimples. Parker's Ginger Tonic is popular among them because it banishes impurities from blood and skin and makes the face glow with health.

The most healthy and popular drink of the season is the ice cold soda water sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

AN IMMENSE CANAL.

An Irrigating Ditch to be One Hundred Feet Wide.

The most gigantic irrigation enterprise ever inaugurated in the State of California has been commenced in Fresno county, the canal for which will be the largest in the State, and fed by Kings river. The water is intended to irrigate 30,000,000 acres of rich land, at present barren through lack of water. The source of supply of this canal will be higher than any other debouching from the same stream. Its dimensions are: One hundred feet in width at the bottom; levees an average of 15 feet in height and eight feet wide at the top, broad enough for a wagon road. The depth of the water is expected to be five feet, with a fall of 18 inches to the mile. The dam in the mountain canyon, whence the water is taken, will be a wonderful and permanent one. It is 25 feet high, 800 feet long, 140 feet wide at the base, and 25 feet on the top. It is riprapped on the inside with heavy rock, and every precaution taken to make it sufficiently strong to securely hold the great weight of water that must be supported. The water is led into the canal from a large head-gate, constructed of heavy timber 100 feet in width and 18 feet high. It is planked over so as to make a bridge for heavy wagons, and has wings to protect it from the floods. The canal is expected to carry 1,300 cubic feet of water per second.

UTAH MARBLE.

Finer than the Finest Florentine and Caracca Marbles.

Speaking of the marble quarries of Spanish Fork Canyon, Utah, the Salt Lake *Tribune* says: Some time ago the parties who have filed claims to these valuable quarries sent samples to New York city for examination and to get the opinion of experts as to the quality. The samples were sent to one of the largest marble dealers in that city, in fact the largest in the U. S., who not only deals in marbles of America but is an extensive importer. The opinion of such a man should be ample to establish the quality of marble, and hence the parties sending him samples waited very anxiously for his report, which came two or three days ago, and was not made until the marble sent him had passed through all the various tests employed to determine its value. After speaking of the various marbles, giving prices, etc., this man says of the Utah samples: "It is finer than the finest Florentine and Caracca marbles." The prices given for imported marbles in New York, and also of some American marbles, are such as will justify shipping from here.

TOO FASTIDIOUS.

How the Salt Lake Saints Live and Their Religion.

A guest at one of the Lake Tahoe hotels writes to the Carson *Appeal* desiring that journal to denounce said hotel for permitting indiscriminate bathing without sufficient raiment on the part of the bathers. The *Appeal*, with a sigh, declares its inability to do so unless the proprietor of the hotel will pay extra for the advertisement. Evidently the lady is too fastidious. She should come to Salt Lake, says the Salt Lake *Tribune*, and come in on a late excursion train. She would go back and get down on her knees to the Tahoe landlord, and would tell her lady friends in a whisper that the Western people are mere children in experience; that they ought to go to Salt Lake and see the Saints live up to their religion.

They Wait on the Manager.

NEW YORK, August 15.

At noon to-day a committee of six striking operators formerly employed by the Western Union, waited on General Eckert and asked for an interview, which was granted. It is not known what proposition they have to advance.

The committee said they represented the Morse telegraphers, Wheatstone operators and the linemen in the employ of the Western Union Company, but that their call was not to be considered as a weakening on the part of the Brotherhood; their purpose was to inquire on what terms the men would be taken back into service. General Eckert said he would recommend that those now out, should apply to their respective superintendents as to the terms for a resumption of work.

Apaches Again at Work.

TOMBSTONE, August 15.

A special courier from headquarters of the army operating against the Indians in Upper Sonora, Mexico, says the Apaches made an attack on the village of Nacori, where Morno is stationed with a small force, and killed five picket guards. At daylight next morning, Morno marched with 20 men, and found the savages to number 150, strongly entrenched, and he was compelled to retreat. He made a second reconnoissance accompanied by armed villagers; his ammunition becoming exhausted, he made a second retreat, during which Morno was wounded. After the skirmish the savages had everything their own way, and drove off large herds of cattle.

The Denver & Rio Grande.

OGDEN, August 15.

The Denver & Rio Grande will commence running through trains again to-day; their road is now in a better condition than ever before.

An attractive, youthful appearance secured by using Parker's Hair Balsam to all who are getting gray.

IN AND OUT OF TOWN.

What is Being Said and Done in a Small Way.

Dave Evans is in from Oneida.

Judge Jere Black is very ill. No immediate danger is apprehended.

Judge Webster and family will leave for the Bay this morning.

There are 183 passengers on the train to arrive this morning from the East.

The JOURNAL office is now a member of the Peanut Co. Our call is . . . - . -

The west bound passenger train was five hours late yesterday morning.

A considerable delegation of Knights Templar from Bodie were here yesterday.

Mrs. Dr. Waggoner and son, returned yesterday from their visit to Plumas county.

St. Bernard Commandery, Knights Templar, are expected to pass Reno to day in a special car.

The first load of Nevada raised water melons were brought to the Reno market yesterday.

Tom Hymers is having a bow window placed in the front of his residence on Sierra street.

B. F. Gray, the borax man, came in from Esmeralda county last night, on his way home to Wadsworth.

Hon. Sam. C. Wright, a Carson Knight, came down last evening on his way to San Francisco

The contract for building the new Esmeralda Court house has been awarded to Geo. W. Babcock for $32,000.

Elizabeth Swartz, an insane patient, was delivered to the Asylum authorities last evening. She was committed from Carson.

Dr. Fred Hutchins, formerly of Reno, is perhaps the proudest man in Sierra Valley; and a five-day-old boy accounts for it.

A. J. Clark has abandoned the idea of moving his store to Virginia street, in consequence of a misunderstanding in the matter of Rent.

Some miscreant set fire to the William Tell House, in Virginia, Tuesday night. The fire, however, was soon discovered and put out.

Senator John P. Jones came up from San Francisco yesterday morning and proceeded on to Virginia. The Senator expects soon to spend a few day in Reno.

Remember the preliminary meeting, Knights of Honor, at Odd Fellows Hall to-night. All parties interested are invited to hear the objects of the order explained.

C. C. Burton, one of the Grand Officers of the Order of Chosen Friends will be in Reno Friday for the purpose of instituting a council of that order in this place.

The Mt. Diablo Mining Company, of Columbus district, Nevada, has declared its first dividend at the rate of 25 cents per share, aggregating $12,500, and payable August 23d.

"Nasby" left for the Bay yesterday. His grip sack was marked "Nasby," Room 58, Lick House. His duster bore the novel legend "If not delivered in 10 days return to Bazaar, Reno"

Mrs. Budden has received word from the authorities at Weaverville stating that her husband died of apoplexy. He was taken sick early Friday evening and died at 10 o'clock that night.

Maj. Doll and wife, and Colonel Robinson, of Erie, Pennsylvania, who have been visiting in Reno for several days the guests of Mr. and Mrs. R. P. Chapin, left yesterday morning for California.

GROWING IN FAVOR.

The Question of Sinking Artesian Wells Earnestly Discussed all Over the State.

The JOURNAL has long maintained that the ultimate prosperity of Nevada depends greatly upon a systematic appropriation and use of its surface and subterranean water, and in this behalf recently called special attention to the matter and urged the propriety, and showed by facts and figures the feasibility of obtaining a supply of water for irrigating purposes by means of artesian wells. Since then the matter has been pretty thoroughly discussed throughout the State, both by the press and by the people, and is meeting with unusual favor. A Mason Valley correspondent of the Walker Lake Bulletin, after noting the fact that hay and barley farming will soon have to give way to vegetables and other farm products to supply the numerous mining camps in that vicinity, says: "But to do all this successfully, water is the great disideratum. Water plenty, and never failing. And as our valleys improve and the streams are diverted to new ranches, more water is required to supply all, after the rush of the summer flood is over, and the stream at the fount is only a thread. In this strait artesian wells would seem to be the most rational means of supply. They would carry us safely through the dry season and make many waste places bloom. Even the arid desert about your own Hawthorne would be a field of beauty, could you have a few artesian wells with never ceasing flow to bring forth the hidden verdure." It is claimed that to accomplish all this would require more capital than individuals are willing to venture, where success is not certain, and upon that ground it is urged with great propriety that an appropriation should be made by the Government for that purpose By way of indorsement of the idea the Bulletin suggests that an organized effort to interest our Representative and Senators, in an appropriation of this kind, would no doubt succeed, and should they make a demand it would be doubtless met with an affirmative response from Congress. For many reasons, the appopriation could scarcely be refused. Nevada has had nothing; it will be for the good of the whole people; the benefits will not be of local applications; there will be no question of jobs or stealing. Every body in the State is interested in having the experiment tried, as all will be benefited, directly or indirectly The State will receive large accessions to its taxable property, and the miner will get supplies more cheaply. Should the experiment be a success, many homes would be made on what are now considered desert tracts, and there would be work for thousands of poor men in places, where now, a few hundred find it difficult to make a scanty living. The prosperity of any section depends on the proportion of its inhabitants at work, and should we be able, in addition to our mines, to develop an agricultural country, there would be work for all, and the life of the prospector would be made easier.

Explosion at Winnemucca

Yesterday says the Winnemucca Silver State, the railroad men unloaded from the cars and weighed a 1,700 pound tank filled with acid for Charles Kemler. The tank was left on the platform, where it exploded a few minutes after the railroad men had left it, scattering the fiery liquid over the platform and on the track. It blackened and charred the planks, but the yard engine, which was near by, threw a stream of water on it and possibly prevented a fire. Some of the acid was thrown over twenty feet by the force of the explosion, which seemed to have been caused by a defect in the tank, through which air reached the acid.

Bodie Knights

A delegation of Knights Templar, from Bodie, forty-five in number, came in from the South yesterday morning and went through to California on the delayed train. Their tinseled caps and "store clothes" gave them quite a distinguished appearance. Many of the Bodie Knights are old Nevadans, well known in Reno.

"Golden Medical Discovery" is warranted to cleanse the blood from all impurities, from whatever cause arising. For scrofula, sores of all kinds, skin and blood diseases, its effects are marvelous. Thousands of testimonials from all parts. Send stamp for pamphlet on skin diseases. Address World's Dispensary Medical Association, Buffalo, N. Y.

A Pioneer Musician Robbed.

There is scarcely a town in Nevada or California in which cannot be found people who remember well that old German Musician, Carl York. With a brass horn he has earned his living on the Pacific coast for a third of a century; and in the flush times was as ubiquitous as the Knight of the green cloth For the last eight or ten years his home has been in San Francisco, where he earned a scanty living furnishing music in second class theatres and dance houses Last Tuesday night the old man was wending his way home, and was about opposite his lodgings on Pacific street when he was seized by two footpads. Immediately divining their object, he implored them not to injure him, but to quietly help themselves to his valuables. The robbers then proceeded to rifle his pockets, taking from him his watch and chain and purse containing a small amount of money. At this juncture their victim made a slight outcry, when one of the miscreants drew a revolver, and fired three shots at the old man, only one taking effect. The shots attracted the attention of the officers, who arrived too late to arrest the would-be murderers. The wounded man was conveyed to the City Receiving Hospital, where he lies in a very precarious condition.

Washoe's Elephant.

The Chinese leper noticed in the JOURNAL yesterday morning is liable, figuratively speaking, to prove an elephant in the hands of Washoe county officials. The miserable wretch was sent here from Wadsworth under a sentence of six months in the county jail for selling whisky to Indians If it be a genuine case of leprosy, and at this time there seems to be no doubt of that fact, it would be an inexcusable act of inhumanity to keep him confined in the jail with other prisoners; he cannot be cared for at the hospital, and it would be a woeful act of injustice bordering on criminality to turn him out to communicate the disease to others unaware of the true nature of the malady. If sent to the pesthouse it would necessitate the employment of some person to look after him. Thus it will be seen that the case is a somewhat difficult one to manage. Just what course the authorities will pursue in the matter cannot be determined for several days; in the mean time the leper has been temporarily removed from the jail to a room in the jail yard where he is receiving such attention from the county physician as the case seems to demand.

The Central Pacific Assessment.

County Assessor Perkins of Humboldt has assessed the Central Pacific Railroad at $10,000 per mile, an increase of $1,000 per mile over last year. It is believed, says the Winnemucca Silver State, that the railroad company will stand the raise without a lawsuit. The increase in the assessed valuation of real and personal property will be nearly $250,000 more than last year. Exclusive of the railroad assessment the assessed value of real and personal property is about $100,000 more than in 1882. Real estate in Humboldt county is given in at a much higher figure than heretofore.

Reduced Railroad Fares.

The Central Pacific Railroad Company has adopted the schedule of fares proposed by the Railroad Commissioners, and tabulated sheets showing the fare from station to station on the Central, Southern and local roads, are being sent to station agents for display at the ticket offices. The new rates will go into effect Sunday, August 19th. On the mountain division six cents per mile is the new rate, and four cents per mile in the valleys.

Deservedly Popular.

Unless it had great merit Parker's Ginger Tonic could not be so popular. Its sale has spread remarkably everywhere, because invalids find it gives them new life and vigor when other medicines fail entirely.

The old Wintermantle Hotel property is to be at once repaired. A corps of masons and carpenters were set at work on the building yesterday. When the building was burned Hoffman held a mortgage on the property for $4,000. The insurance paid that, and Wintermantle is now sole proprietor. He will repair the building, use the upper story as a lodging house, the lower as a family residence, with a saloon in the first room.

George Troy came in from Hawthorne last night. He is interested with Babcock for building the Esmeralda new court house. Glad of it.

A GOOD SHOWING.

The Value of the Production of Mines in 1882.

Albert Williams of the Census Bureau at Washington has issued his report on the mineral resources of the United States for 1882. About forty mineral substances are enumerated. Coal was the most valuable in point of production, 92,219,454 tons having been mined, valued at $146,632,581. This includes all that was used at the points of production. The value of other metals for the year are given as follows: Pig iron, $106,336,429; silver, $46,800,000; gold, $32,500,000; copper, $16 038,091; lead, $12,624,550; zinc, $3,646,620; quicksilver, $1,452,537; nickel, $309,777; antimony, $12,000; platinum, $1,000. Total, $210,756,004. The production of some of the non-metallic substances makes the following showing: Crude petroleum. $23,704,698; lime, $21,700,000; building stone, $21,000,000; salt, $4,320,140; cement, $3,672,750; limestone for iron flux, $2,310,000; phosphate rock, $1,147,830; New Jersey maris, $540,000; crude borax, $338,903; mica, $250,000; crude barytes, $160,000; chrome iron ore, value at Baltimore, $100,000; soapstone, $90,000; manganese ore, $52,500; asbestos, $36,000; graphite, $34,000; sulphur, $21,000; cobalt ore and matte, $15,000; precious stones, uncut, $12,500; asphaltum, $10,500; corundum, $6,250. pumice stone, $1,750, Total, $226,156,402. The aggregate production of metals and other substances in 1882, including coal, shows a total value of $453,912,400.

One of Reno's Attractions

What is being said and done in behalf of the Reno public school has began to attract the attention of people outside who are less favored in the matter of schools than Reno. From a gentleman who has been spending several weeks in the northern country, it is learned that a great many families in Lassen, Modoc and Plumas counties who have regularly sent their children to Sonoma, Barkley, San Jose and other places in California to be educated, have become tired of the inefficiency of their manner of teaching and express a determination in future to place their children in the school at Reno. The majority of them seem to favor the public school, and if it shall prove as efficent and thorough as it is reasonably hoped it will, another year will find as many scholers from the outside, paying a regular tuition for the privilege of attending the Reno public school, as can be provided for.

The Summit of the Continent.

The completion of the Carson and Colorado Railroad has rendered Mount Whitney accessible to the world, and considerable attention is being drawn toward the mountain, and interest excited to ascend it, as it is the supreme summit of the continent It is an event in the life of anyone to stand upon this lofty height and to sweep with the eye the awful ranges of horizon that gird it. Whitney stands a lordley creation amid a rugged and grand company of companion peaks, each of which is as noble in form and altitude as any of the celebrated mountains of the Old World.—Index.

New York Knights.

A special train with three handsomely decorated palace cars, baggage car etc., went West yesterday morning with a large delegation of Knights Templar from the State of New York. The party is composed of distinguished looking gentlemen, who travel in princely style.

Superintendant John Valentine, of Wells, Fargo & Co., has generously offerred to ship all ores for the Nevada State Cabinet at cost, the State only being obliged to pay the amount charged Wells Fargo by the railroad companies.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-swf-1yr,
